

The SHOWER SHIRT®

The SHOWER SHIRT® is a patented, post-surgical, water resistant garment designed by a mastectomy patient, to protect chest surgery patients requiring surgical drains, ports, or catheters, when showering. Internal pockets in the garment also support the weight of drains and various medical paraphernalia.

The SHOWER SHIRT® is the only patented shower shirt garment for surgery patients on the US market, and recognized as US Patent #8,516,613.

Patients who can benefit from The SHOWER SHIRT®

- Mastectomy
- Patients with Dialysis Catheters (both PD and Hemodialysis)
- Lumbar & Cervical Neck Fusion patients

FOR ESRD PATIENTS ONLY: A9270 should be used when billing Medicare. This billing code falls under the composite payment bundle and billed by medical providers ONLY.

The SHOWER SHIRT® Features

Physician Comments

"I thank you for your product. I am a physician and patient with a medi-port. I had tried numerous plastic adhesive covers without success. Your product allows me to safely shower, even when my port is accessed. Everything stays dry and lowers my risk of infection. I appreciate what your product does for mastectomy patients but it has made a world of difference for me as well."

Dr. Sean M. Kelly, Berkshire Medical Center

Patients' Testimonials

"I love this product! When worn as directed, staying dry is easy. I was able to shower, wash my hair and get on with my day. I will recommend this shirt to others. Thanks for your great customer service and kind concern."

J. Miller, Breast Cancer Patient

"The Shower Shirt has been a Godsend for me. Being a dialysis patient with a neck catheter, my husband found it online and it has worked perfectly! My catheter can't get wet and the Shower Shirt has kept it dry for almost 3 months and counting...I love it!"

L. Thom, Dialysis Patient

The SHOWER SHIRT® (the "Product") is designed, if used properly, to restrict water from coming into contact with surgical sights while showering. Follow all instructions carefully. The Product is not guaranteed to reduce or prevent infection. Post-surgical infections can occur for many known and unknown reasons. In the event you experience any signs of infection as described by your physician, contact your physician immediately. In no event shall The SHOWER SHIRT® Company, LLC be liable for any direct, indirect, punitive, incidental, special consequential damages, to property or life, whatsoever arising out of or connected with the use or misuse of its products.
